Subject: Transmittal of Reclamation Contract and Payment schedule documents, Rocanville Corporation, Tejon Mine, M/027/087, Task ID# 145, Millard County, Utah

Dear Mr. Hamilton:

On March 1, 2004, the Division received the final copies of the Notice to Conduct Large Mining Operations for the Tejon Mine. On April 26, 2006 the Division approved the reclamation surety payment schedule as outlined in the attached signed documents. We are transmitting to you an approved copy of your final plan.

The Division is transmitting your signed reclamation contract and the executed surety payment schedule. We will forward a copy of the executed documents to the BLM field office for their records. The surety will be reviewed periodically to assure that the bond remains adequate. Please be aware you have not received final approval for your total mine plan disturbance and are only allowed to operate within the current 11 ½ acres (see attached map showing the acreage you are allowed to operate in) until the total surety amount is paid. If at any time you expand beyond your current disturbance without proper reclamation surety, you will be given a cessation order and asked to cease mining operations.

Enclosed is a copy of the "approved" Notice of Intention to Commence Large Mining Operations for your files. **In your situation this final approval is only related to the amount of surety you have posted according to your payment schedule.** If in the future, you wish to modify your mining and reclamation plan, please furnish a redlined and strikeout version of the page(s) you wish to change and indicate how these are to be incorporated into the current approved plan using Form MR-REV-att, which is located on the web at [www.dogm.utah.gov](http://www.dogm.utah.gov).

When the final surety payments are received, the Division will issue its final approval. Please call me at 801-538-5258 if you have any questions.

Sincerely,

Susan M. White  
Mining Program Coordinator  
Minerals Regulatory Program
